KATELYN JONES

Recent graduate in Themed Entertainment, driven by a love for creating environments and visuals that tell stories. I'm eager to join a creative team where I can contribute to visually compelling projects and continue learning from industry professionals.

EXPERIENCE

Disney College Program- Merchandise

2026- Present | The Walt Disney Company | Walt Disney World

As a merchandise Cast Member, my duties include opening/closing procedures, knowledge of inventory and new products, and solving problems with customers. This opportunity has let me build upon my previous skills in running a POS, organization of product, and customer service. The combination of my retail skills and previous Disney Cast Member experience allows me to make the most of every guest interaction and help to make magic in every day situations with guests.

Key Supervisor

2025- 2026 | Dover Saddlery | Laguna Hills, CA

As a keyholder of a retail chain, my duties included opening/closing procedures, management of inventory and new products, training new hires, and solving problems with customers, including answering questions and assisting with the proper fit of equipment. My skills include handling inbound phone inquiries, running a register/POS, organization of product, and cleaning.

Attraction Hostess

2024-2024 | The Walt Disney Company | Disneyland Resort

As an attraction hostess at Mater's Junkyard Jamboree, I was responsible for operating ride machinery as well as guest interaction and problem-solving. It was my duty to ensure proper ride safety and conditions and relay information and updates to guests. Working Guest Control for World of Color (One) built my skills in crowd control and spieling. Working WoC allowed me to make magic for guests and reach the best solutions for everyone in complicated situations.

Assistant Manager

2019-2022 | Colorado Tack and Supply Co | Thornton, CO

As the assistant manager of a local small business, I was tasked with opening/closing procedures, running social media platforms, managing consignment contracts, and training new hires. Often the only employee in the store, responsibilities included answering phones, running a POS, organizing products, and cleaning.
